

MEDICAL WASTE STORAGES

The Waste Do Not Cause Danger

In hospitals and clinics, it is necessary to store wastes at +4°C until the waste collection vehicles arrive so that micro-organisms do not breed inside the waste. Medical waste cabinets have been developed for this purpose.

Four different capacity options ranging from net 145 lt to 584 lt, stainless steel drawers, and a block door feature ensure that waste is stored safely for a temporary period.

Exterior Dimensions WxDxH (mm)	591X654X865
Interior Dimensions WxDxH (mm)	490X485X640
Packed Dimensions WxDxH (mm)	608x660x960
Net Volume (L)	145
Gross Volume (L)	152
Net Weight (kg)	56
Gross Weight (kg)	62
Insulation Thickness (mm)	50
Operating Temperature	0 / +15 °C
The Set Temperature	4 °C
Voltage	220 / 240V
Frequency	50 Hz
Power Consumption	1.78 kWh
Ampere (A)	1.95
Refrigerant	R600a
Outer Body Color	RAL2011
Container Loading 20"	54
Container Loading 40"	114
High Container Loading 40"	114
Truck Loading 13.6 Meters	160

General Features of Medical Waste Storages

- Stainless steel inner body
- Anti corrosive powder painted steel outer body
- High density polyurethane for insulation
- Premium door (without glass, block door)
